Etc.

Dear **xxx**,

On behalf of the planning committee of Binational Health Week 2018, (BHW) we would like to extend an invitation to join our efforts and enter our directory of experts. This directory is intended as a tool of communication and contact between the community of specialists and the planning committee. We believe that your participation will be a great and significant asset.

Binational Health Week is one of the greatest efforts in the Americas aimed at improving the health and well-being of the vulnerable Latino population living in the U.S. and Canada. During the BHW, various federal government institutions, state and local community organizations and thousands of volunteers gather annually in the month of October to conduct educational workshops, health fairs and promote health insurance enrollment. Moreover, during BHW we mobilize innovative resources to improve the cultural competence of health care providers and policy-makers with the goal of reducing health disparities affecting the migrant population.

Last year's BHW activities took place during October, 2017. It is estimated that 1,500 activities took place which 204,155 people benefitted from. In these events 6,240 agencies led by over 130 consulates worked together to put together a successful Binational Health Week.

This year, Binational Health Week will take place in October. The next planning meeting for the committee will take place on **insert time and place**. Please let us know if you would like to be part of this wonderful movement and/or directory.

Sincerely,

The Planning Committee
